Stay in the Neighborhood:

A majority of Inbound Exchange students will live off-campus. We provide advice on finding accommodations to our approved students. It is the responsibility of the inbound exchange student to find suitable housing for the duration of their semester. We suggest students begin the search process as soon as they are accepted due to limited housing options in the Toronto area. Students should look for reputable housing options and ensure their living environment has access to a good WiFi connection for their classwork.
